## HAYNES LIBRARY

### Librarian's Report

---

The Library is open for the return and drawing of books, Saturdays from 2 to 4 and from 6 to 8 p. m.

Only a few volumes have been added to the Library during the year and most of these have been non fiction and reference books.

Books suitable for school children to read are very much needed.

It would help in the buying of new books if those who patronize the Library would suggest such books as they consider desirable to have on the shelves.

Number of volumes at date	1,782
Largest number drawn any day	24
Smallest number drawn any day	7
Average number	14
Amount received for fines	\$ 1.63

Respectfully submitted,

E. B. ROBY, Librarian.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

I herewith submit my report covering the year 1923-24 and part of the year 1924-25

### 1923-24 Statistics

Number of schools maintained	4
Total registration	76
Unrepeated registration	65
Length of school year in weeks.	36
Aggregate half days lost	62

#### Enrollment by grades:

Grades	Pupils
I	18
II	8
III	5
IV	12
V	6
VI	8
VII	1
VIII	7
Per cent. of attendance	82.32
Pupils neither tardy nor absent	2
Cases of tardiness	180
Pupils attending High school outside of district	10
Teachers holding licenses	3
Teachers holding permit	1
Teachers teaching for first time	1
Visits by school board members	12
Visits by superintendent	59
Visits by citizens	72

Attention needs to be called to the per cent. of attendance, cases of tardiness and the number of days lost. The per cent. of attendance is low. Children ought to be in school every day except in case of sickness. Co-operation on the part of those who have children in school can raise this per cent.

The tardy record is bad. Most of the children live within walking distance of the schools. Here again is needed co-operation on the part of the home.

Sixty-two half days were lost last year. This means an average of seven and a half days to a school. Instead of each school having thirty-six weeks, in reality each had thirty-five. The causes of these lost half-days are tabulated below:

Holidays	Institutes	Weather	Other Causes
38	12	4	8

Most of the time lost was by reason of holidays. It is probably safe to say that during a school year only two holidays have any real significance. These are Thanksgiving and Memorial Day. School ought not to be in session on these days. These days should be observed by some sort of special exercises in school in which the meaning of the days is made clear to the children. Other holidays occurring while school is in session are in no way observed by the communities and there is no real reason for closing up a school. The practice of keeping on a holiday when it falls in the middle of the week and closing Friday in its stead ought to be discouraged.

The teachers from three of the schools attended two institutes. Time spent this way is considered well spent and the district is supposed to be the gainer by it.

Two days only were lost on account of weather

conditions, proving that a New Hampshire winter is not too severe to run rural schools.

Four days were lost because of other causes: Plymouth Fair and the day following Thanksgiving were the chief causes.

To overcome the loss of school days the school calendar was arranged in such a way that some of the holidays came in vacation. A recess of one week at Thanksgiving took care of the loss of two days. The two weeks' vacation at Christmas took care of New Year's Day.

I recommend that such an arrangement of the school calendar be continued to the end that the number of days lost may be lessened.

### 1924-25 Statistics

Schools opened the last week in August. The starting of the rural schools at this time is being adopted more and more throughout New Hampshire.

The entire teaching staff was changed.

Up to the writing of this report I have made thirty-nine visits. This time has been spent in organizing the work and supervising the work of the teachers.

I plan to give standard tests and intelligence tests at the end of the eighteenth week. This marks the middle of the year and will give me the basis of what ought to be done between now and June.

Very little repair work was done last summer. The most urgent need is at the Riverside Schoolhouse. This building stands in an exposed place and is an extremely uncomfortable building in cold weather.

The following alteration and additions should be made to make this a comfortable building.

The windows on the north side should be removed and placed on the west side with the ones already there and the north side closed up. Seats should be rearranged so the pupils will face the north. The light will then come in over the pupil's left shoulder. The added window space will increase the light from this side and approach nearer the ideal condition. The walls should be papered and sheathed. A jacketed stove placed in the northeast corner will distribute the heat more evenly. More black board space would add to the effectiveness of teaching.

I recommend that a sum of money sufficient to make these changes be raised and used. One other recommendation I wish to make. I suggest that whenever changes in the teaching force are necessary that the vacancies be filled by teachers of experience and training. If necessary that normal teachers be employed, that the salary schedule be arranged in such a way that the services of these teachers may be continuous for a term of three or four years. It has long been recognized as a sound principle in education that education, training, experience and continuous service on the part of the teacher is economy. The expense of such service would be borne by the Equalization Fund and would not be an added burden upon the town.

I wish to thank the committee and teachers for their hearty co-operation in all phases of the work.

Respectfully submitted,

EARLE P. FREESE,

Superintendent of Schools.
